

3/14/2020

Earlier today our administrative team met and as such **classes for students have been cancelled for the week of March 16-20 2020.** Teachers and support staff will be reporting to work and using the first several days of the week to develop alternative instructional plans as well as reaching out to your family. The district is focusing on meeting three objectives at this time and they are as follows: Make plans for online and homebound instruction, charged our food service staff to deliver breakfast and lunch to community drop off points beginning Tuesday, March 17, 2020 and ensure we make contact (via phone or email preferably phone) with every family we serve in the district. We want you to know there is a plan to support you and your children during this challenging time.

If your child has medication at school and it is necessary for you to pick up please contact a building level administrative assistant and they will be able to assist you beginning Monday, March 16, 2020.

Stay tuned for further communication updates as we move forward on this ever changing situation! #WeAreWD

Respectfully,

Terry Slack
