

# Childcare Support for Families of Emergency Workers During School Closure

During this time of school closures, Northland Community Schools will be offering childcare support to our families who are employed in the emergency services.

Governor Walz has defined emergency services workers as: providers of healthcare; emergency medical services; long-term and post-acute care; law enforcement personal; personnel providing correctional services; public health employees; firefighters and other first responders; and court personnel.

Recipients of childcare must be school-aged children, **kindergarten through 12 years**, who are enrolled in the school district. Childcare will be provided during school hours. The purpose of this support is to enable our emergency workers to help keep our community safe.

If you have alternative childcare or a spouse working from home, please consider taking advantage of that. **Please complete this form and return it to the school office** or call the school office if you fit the above guidelines and are in need of childcare. The district needs advance notice in order to adequately staff and plan for this childcare.

## Transportation and Hours

Families are required to provide transportation to and from school. Daycare hours are 8 a.m. to 3 p.m.

1. Parent/Guardian Name:
