Deputy Director
Community Action

March 31, 2020

Tracey Quarne
Glenn County Office of Education
Superintendent of Schools

The Glenn County Health and Human Services Agency highly recommends that school campuses remain closed through the remainder of this school year. With the continued confirmed cases of COVID-19 nationwide, in our State and increased cases locally, now more than ever we need to be cognizant of the Governor and President's orders to stay at home and shelter in place.

We appreciate your partnership and the leadership you and your fellow superintendents and colleagues have shown us in this challenging time. We will continue to monitor this situation and to keep you apprised of any changes and developments that could alter this current recommendation.

Stay well and stay safe,
