

COVID-19 UPDATE 3-25-2020

Parents and Patrons,

I would like to update you on what is happening as far as school goes at this time. First of all, thank you for your cooperation and patience during this time of change in educating our students. Non-traditional methods in learning delivery and in the way school is operating have been adopted. These delivery methods are evolving as staff and administration becomes more familiar with what is available.

I think the nutrition program is working well. We have a lot of families taking advantage of this service. I would add, if you didn't sign up for this meal delivery opportunity and now wish to be included you can still contact the school office.

The Nebraska School Activities Association has issued this statement: "All NSAA activities practices and competitions are suspended through May 1. This suspension may be extended should the conditions warrant."

We will be continuing with educational enrichment for all students through an alternative learning delivery through Friday, May 1, 2020. The alternative delivery may be a Learning Management System like schoology, classdojo, google classroom or zoom for synchronous and/or asynchronous video, etc or delivering content/instruction through the use of hard-copy packets.

On May 1, 2020 a decision will be made concerning the rest of the 2019-2020 school year. This means many school activities will either be postponed or cancelled. Our plans presently include having Prom and Graduation, **BUT**, I anticipate not on the dates presently scheduled. More information on this will be forthcoming.

Included with this update is a letter from the local health departments concerning the COVID -19 issue.

Again, thank you for your support of your school during this challenging time.

Wayne Ruppert, Superintendent
