Up to \$10 per month (plus taxes)

10 Mbps
No term commitment
No deposit
No installation fee
In-home Wi-Fi modem included
Find out if Access from AT&T is in your area: [Click here.](#)

To Qualify:

COVID-19 Response: No termination regardless of ability to pay, waive late payment fees due to inability to pay, and keep public wifi hotspots open for those who need them.

Offering two months of free service to new Access customers who order by April 30, 2020.
\$5/mo or \$10/mo thereafter, depending on your speed.

Eligibility based on income and to households participating in National School Lunch Program/Head Start, Supplemental Nutrition Assistance Program (SNAP or food stamps) or that receive Supplemental Security Income (CA residents only).

Applicant must be without outstanding debt for AT&T fixed Internet service within the last six months or outstanding debt incurred under this program.

As well, AT&T is giving free wireless data to school districts to provide to students as they adjust to learning from home. Through May 22, qualified schools (K-12, colleges and universities) nationwide activating new lines for school-issued tablets, 4G LTE-enabled laptops and hotspot devices will get unlimited wireless data service for free for 60 days to offer their students.

Additional offerings include:

Video Conferencing Help: New customers in K-12 education, as well as healthcare and non-profit social services can get AT&T Office@Hand Premium for free to for up to 60 days. This provides fully integrated phone, fax, messaging capabilities and HD video conferencing for up to 100 users.

Home Internet: Expanded our low-cost option for home Internet service, the Access from AT&T program to households participating in the National School Lunch Program and Head Start are eligible. Also offering new Access from AT&T customers two months of free service.

Distance Learning: AT&T is launching a \$10 million Distance Learning and Family Connections Fund. The fund launched with a \$1M contribution to Khan Academy to help them improve and expand online learning resources to meet the growing demand from parents, teachers and students.

AT&T is providing 60 days of free access and unlimited usage of Caribu, a video-calling application that allows family members to read, draw, and play games with one another while at different locations.

T-Mobile

The T-Mobile ConnectHome Plan is donating devices (tablets and hotspots), while supplies last, to public housing authorities, schools, libraries, and nonprofits to help bridge the digital gap for K-12 students. Participating organizations must purchase Internet plans.

Two-year program. Plans must remain active for two years;
Plans starting at just \$10.00 for 2GB of high-speed data on 4GLTE network;
No cost filtering solution with four access levels to protect your students;
No overage fees;
On-site and no cost implementation services from experienced wireless professionals;
On-site and no cost sales engineering support; and
No cost LTE signal boosters if needed within the home for government liable users.

Additional Oklahoma Resources

Grand Telephone

Currently in the process of setting up public Wi-Fi hotspots in areas with large parking areas for use from vehicles.

Cross/MBO

Customers who were transitioned into telework roles can expand their bandwidth capabilities at no additional charge – customers simply need to provide the telework directive from their employer. Processes have been initiated to simplify service activations and allow consumers to get connected using online resources.

Panhandle Telephone

Waiving activation fees for installation of Broadband services and a promotional package for customers affected by the COVID-19 outbreak (loss of job, online school requirements, etc.) Package includes 30/5 mbps for \$30 for 6 months/Whole home Wi-Fi free for 6 months. Providing increased data limits on wireless plans and will offer credit on applicable overage charges. Waiving all late fees and will not disconnect customers for non-payment.

Totah

Totah has 2 locations of Wi-Fi access in Oklahoma for the Caney Valley School System and area residents of Ochelata. Caney Valley has Wi-Fi access at the football field and Ochelata has access at the baseball facility.

Hilliary Communications

Working closely with local Mayors and School Superintendents to set up community WI-FI locations in the towns and communities that they serve. They have customers throughout eight counties in Oklahoma and have identified 57 locations that are being set up as community WI-FI spots. These locations will provide free internet daily between the hours of 8:00am and 9:00pm.

Additional locations will be added if the need arises. In addition to the free WI-FI hotspots, customers can also upgrade their current speed at no charge until the pandemic passes.

Hilliary will publish the WI-FI location list on their website and Facebook pages. The local schools and towns will also publish locations on their websites and send notices to residents and students by automated calls or texts that they have available as part of their communication systems.

Suddenlink

For households with K-12 and/or college students who may be displaced due to school closures and who do not currently have home internet access, Suddenlink is offering the Altice Advantage Internet solution for free for 60 days to any new customer household within their operating footprint.

After the first two free months expire, a customer may either cancel the service at no charge (which they can do at any time) or keep it as a regular paying Altice Advantage Internet customer for only \$14.99/mo.

Residents interested in internet connectivity due to school schedule disruptions may contact their customer service department at (888) 633-0030.

Sparklight

A 15 Mbps internet plan for \$10 per month is available for the next 60 days to help low income families and those most impacted from coronavirus challenges, such as seniors and college students. No documentation is required to sign up for this plan.

Opened free Wi-Fi hotspots in Sparklight local office parking lots across its footprint for public use during the crisis in order to keep individuals and communities connected. The company will work to open additional Wi-Fi hotspots in other public areas in the coming days and weeks.

Beginning March 13, 2020, Sparklight made unlimited data available on all internet services for 30 days and committed to waiving late fees and deferring payments for 60 days for customers experiencing financial strain as a result of the coronavirus (COVID-19).

The company also stands ready to support critical infrastructure with speed upgrades and other requests to ensure ongoing and reliable service for local educators and health care professionals, including customers under federal rural healthcare and E-rate programs.

Keep Americans Connected

The Keep Americans Connected Pledge issued by the FCC states the following:

Providers agree to a) not terminate service to any residential or small business customers because of their inability to pay their bills due to the disruptions caused by the coronavirus pandemic; b) waive any late fees incurred as a result of the coronavirus pandemic; and c) open Wi-Fi hotspots to any American in need.
