

Parent Communication | March 16, 2020 | 1:10 PM

As you know, the Governor has ordered Schools be shut down through March 29, 2020. As of now, we are planning for students to be back on campus March 30, 2020. This includes transportation.

Should anything change between now and then, we will be sure to communicate promptly and place updates on our Website. Though we hope this will not be necessary, our teachers are using these two (2) weeks to plan for delivery of instruction through alternative means, such as a Flexible Instruction Day (FID).

The District is working with the State to be approved for the distribution of breakfast and lunch for all students in the District. How this will look is still in the planning phase. We suspect that it might be Monday, March 23, 2020, until we can facilitate operations on our end. In the meantime, please utilize Marysville Lions Club and Duncannon Fire Department per their communications to the Community. The Duncannon Fire Department already has meals for immediate distribution at the Martin Building, 101 Cumberland Street, Duncannon, PA 17020. The contact person is Heidi Sands at 717.903.1463. We will update you on this and Marysville plans as soon as additional information is available.

Tuesday, March 17, 2020 | Student pickup of essential technology and classroom items

Our buildings will be open from 7:30 AM – 3:00 PM in order for students to pick up essential items they may have left behind last week. This includes: iPads, textbooks, sports equipment, instruments and medication (which will be addressed separately). We ask that any students coming to pick up items enter and exit the building as quickly as possible.

Student Medications – School nurses will be at each of the three (3) buildings to re-distribute medications currently at the school for home use. These will only be released to Parents. Parents who come to school for medications can ring the buzzer and indicate who they are and that they are here to pick up medication.

We will continue to provide updates to our Susquenita School District community as necessary. It is our goal to keep you informed during these difficult times.

Kent R. Smith
Superintendent of Schools
