March 14, 2020

Dear Brittan Parents,

Our district continues to monitor the status of the spread of the COVID-19 virus in California, and we are making daily decisions regarding school schedules and activities. As of Friday night, March 13th, there are no confirmed cases of COVID-19 in Yuba and Sutter counties.

At this time, acting in accordance with the advice of Sutter-Yuba county health officials and the recommendation of the California Department of Public Health School Guidance on Novel Coronavirus, **our plan is to keep Brittan School District open and follow regular schedules.**

We are aware that a number of school districts in neighboring counties have elected to close their schools. Some districts that have closed schools are in counties with viral situations substantially different than those in Yuba and Sutter counties. On Friday evening, we received information from our county health officials advising us that their strong recommendation is for schools to remain open at this time.

This is a highly fluid situation, and we will continue to monitor it closely. We will inform our school families and our community immediately if there is any change to these plans.

Please see the attached letter from Dr. Phuong Luu, Bi-County Health Officer, regarding the appropriate timing for school closures.
