ACYR SCHOOL CLOSURE UPDATE, Monday, March 30, 2020

Good afternoon ACYR/City View High School Students, Parents and Guardians,

As you may have seen this morning, Governor Doug Ducey and Superintendent Kathy Hoffman released a statement announcing that the current public school closure will extend through the rest of the school year. Our leadership team and faculty have developed plans to address remaining in a distant learning mode through the rest of the school year. Students should continue working with their teachers to access and complete remote assignments as assigned.

If you are enrolled in City View High School or City View Now, based on current State guidance, as long as students are completing their coursework remotely (at home or another location), they are in no danger of being held back and Seniors can anticipate graduating as scheduled in May. We have not cancelled graduation at this time but will continue to modify plans once we know more over the next month.

If you are enrolled with our adult basic education services, look forward to more information about testing as soon as we receive it. Currently, GED testing is still occurring at testing centers on a limited basis but after today's announcement we are unsure how that will work for the next month. As soon as we hear more from the State, we will communicate your options to you through your teachers.

If working remotely poses a challenge, please communicate with your teachers so we can provide as much assistance as possible. We want to ensure you have access to technology so you can be assured not to fall behind and can end the year successfully.

Thank you for your ongoing support. And thank you to those who have reached out to us with comments, questions or concerns. A friendly reminder that you can contact the school through email at lydiam@acyraz.org, if you're unable to directly contact someone specific to your matter.

Take Care and stay safe and healthy.
