

“Franklin ISD has made the decision to close for the rest of this week, March 16th through Friday, March 20th.

FISD will make the decision on Thursdays of each week on whether students will be in school the upcoming week after monitoring the local and state conditions of the COVID-19 virus.

FISD administration is working today to develop our plan for the possibility of a short term or long term closure. This plan will address these areas during the closure:

- The process to provide alternative instruction to our students while school is closed
- Where and when meals will be provided to our students beginning Wednesday, March 18th
- Continued disinfecting of our facilities
- Protocols for re-opening of school when appropriate

While making the decision to close school for an extended period, we will be considering all information available from local, state and national health organizations.

As always, any new information will be released through the FISD app, school messenger and all social media sites. "
