04.16.2020

Dear Parents and Staff,

I wanted to reach out and give you some updates about our Online Learning Plan and additional information about the district as we continue educating students during the COVID-19 pandemic.

Parent Survey

We are interested in gathering feedback from our parents about our Online Learning Plan and have created a survey at this [link](#) . We will use the results of this survey to help make revisions as deemed necessary.

Access to Buildings for Essential Items

Please continue to work with your building administration as they will set up specific times for building access to essential items.

Instructional Practices

As I stated in my last communication with you, all students are now being graded for their online assignments. Also students in grades 3-12 are being graded on assignments in their physical education, music and art classes. We need the continued support of our parents to monitor the online learning of our students. We have also created a [website](#) that provides a variety of resources for our parents and teachers.

Technology Help Ticket Procedures

As a reminder, if you are having any issues with technology, please fill out a Help Ticket by clicking [here](#). This ticket will enable our team to address your concerns in a timely and efficient manner.

Voting

If you haven't already done so, it is not too late to send an application for an absentee ballot. This information can be found on our website.

I once again want to express my sincere gratitude for all of the efforts of our students, parents, and staff members during these challenging times. Every day I continue to see examples of what Brunswick Pride is all about. I have said it before...it takes a team for this to be successful. We continue to demonstrate that we truly are stronger when we work together.

Proud to be a Brunswick Blue Devil,
Michael Mayell

GO BIG BLUE!
