April 17, 2020

Dear Parents, Guardians and Students:

Yesterday, the Governor announced that schools would continue to be closed through May 15th. As of today, this means that students will return to school on Monday, May 18th. Our team will continue to work each day to provide learning materials, opportunities, and endless support for all of our students and parents.

As student learning continues to be homebound, it is essential that we work together to ensure that each child is working and participating with their teachers and support systems to ensure that they continue to learn and grow through the duration of this school closure. At the elementary level, please be sure your child is completing their learning packets or online learning activities and participating with their teachers. At the high school level, please be sure that your child completes learning assignments, participates in their learning activities, and communicates with their teachers to ensure that they receive course credit. High school students should also be checking their school email regularly. It is important for all of our students to continue to be motivated, work hard, and persevere. If at any time your child is struggling and needs assistance, please email their teacher.

Through the magic of video editing, we'd like to see if we can "pass" a ball all around Remsen while still maintaining the rules of social distancing. It would be great to have members throughout the community, young and old, participate in our game of catch. If you would like to participate, please make a quick video of yourself or a family member, dressed in Remsen gear and/or orange and black, catching a ball and then throwing it. The video should be sent to Mr. Winghart at gwinghart@remsenscd.org by Friday, April 24. More information regarding the video can be found on our webpage.

Parents of seniors, please remind your senior to email their slides to Mrs. Platt by Monday for the "Senior Tribute". Seniors also need to complete their Remsen Alumni Association Scholarship applications and email them to Mr. Mark Williams.

Parents and Guardians, please visit our webpage to access information on child care opportunities, student meal information, mental health resources, New York State Department of Health information, health insurance information, educational resources, working paper information, updates from the principals, and weekly updates from me.

As we finish out week five of this State Emergency we continue to be amazed by our students. They are doing a great job, learning and working like no other students have ever had to before! Please know that we are here to help you any way we can. Do not hesitate to reach out to us for assistance. We will continue to provide you with important updates and information as needed. I encourage everyone to continue to do their part to help slow the spread of the Coronavirus by being mindful of the preventive measures we all need to follow.

Our Remsen community is strong. Together, we can get through anything. I wish health and wellness to everyone as we continue to fight through this pandemic. Please be safe, and whenever possible, please stay home.

Sincerely,

Timothy Jenny
Superintendent
